

Boerne, established over 150 years ago, is a vibrant small community that just feels like home. Nestled in the beautiful Texas Hill Country just northwest of San Antonio, Boerne is a town rich in German heritage with a unique blend of urban amenities and small-town charm. From the cool spring-fed waters of Cibolo Creek winding its way through town to its interesting shops, quaint restaurants, and rich calendar of local events and festivals, Boerne is a place you will want to call home.

Located just minutes from Boerne's bustling Main Street, Bent Tree at Boerne is a new residential community featuring one-acre-plus homesites carefully sited among groves of majestic oaks and an extensive greenbelt preserve. Every detail—from the architecture of the gatehouse to the rustic stone walls, scenic walking trails and native landscaping—draws inspiration from Boerne's rich heritage and the spectacular surrounding countryside. As you pass through its gated entrance, you will immediately appreciate that Bent Tree has been carefully planned and developed to preserve the intrinsic beauty of this exceptional property.

Whether you are planning to build a home for a growing family or are thinking about retiring to your dream home, Bent Tree at Boerne has what you are looking for. Generous homesites in a peaceful natural environment with easy access to outstanding schools, excellent medical facilities, plentiful social and recreational opportunities and nearby San Antonio employment centers. Live Life to the Fullest at Bent Tree.

- 8-foot Knotty Alder front entry door with **Kwikset®** handle set featuring **SmartKey™** technology.
- **Energy Efficient** Low-E3 Double paned vinyl windows with decorative grid window pattern on front of home, per elevation.
- Garage is fully sheetrocked, textured, and painted. Heavy-gauge steel garage door with **Liftmaster®** ½ horsepower belt drive **WiFi®** garage opener with **MyQ®**
- Concrete patio, deck or covered patio, per plan.
- Generous landscape package uniquely designed for each home with **TifTuf™ Bermuda** grass. Zoned sprinkler system with **RainBird®** programmable sprinkler controller and rain sensor for all sodded areas and planted beds.
- **Sherwin Williams®** exterior paint

## INTERIOR DETAILS & DESIGN

Texas Homes home plans were designed with careful consideration for how a home will be lived in. When developing a plan, we consider many aspects of how a home will accommodate furniture, the usability of the kitchen, mechanical and plumbing systems and more. However, the house is still a blank canvas that needs your choices of colors and materials to make it a home. We offer popular pre-drawn options for you to choose from and the ability to make a price request for a custom change. You can customize your home during two personal consultations at our Design Center. Also, a personalized meeting with our home networking, audio, and automation consultant.

- High ceilings with decorative ceiling treatments
- Custom Monterrey drag drywall finish on walls and ceilings with choice of selected **Sherwin Williams®** decorator paints. 5 1/8" height baseboards throughout the home painted with **Sherwin Williams®** semi-gloss extra white paint.
- 8-foot-tall raised panel **Masonite®** interior doors with decorator hardware options available.
- 20" x 20" porcelain or ceramic tile flooring at entry, kitchen, breakfast area, laundry, and all baths.
- Long-life decorator **Shaw®** carpet in a wide choice of colors with 10 yr quality assurance and 1/2" moisture barrier carpet pad.
- Choice of light fixture packages with satin nickel finish. 60" three-speed reversible ceiling fan in family room and master bedroom. All bedrooms, game room and study are blocked, wired, and switched for future fans with light kit. Decora-style light switches throughout the home.
- **Energy Efficient** flush mount LED lighting and LED bulbs, per plan.
- Hard wired smoke and carbon monoxide detectors per plan. Hard wired smoke detectors in all bedrooms.

## GOURMET KITCHEN

A gourmet kitchen starts with design and layout of the kitchen. Appliances that are built into the cabinetry, ample storage, and countertops that are durable enough to sustain daily meal prep.

## CONSTRUCTION & WARRANTY

Texas Homes plans are designed and engineered for each specific home site. Each home features and engineered post tension foundation with 3000 PSI concrete with pre-pour and post pour engineering inspections.

- **StrucSure Home Warranty** - 10 Year Fully transferrable structural home warranty.
- Home is conventionally framed with kiln dried studs, 16" on center, and double top plates on all exterior and interior walls.
- **DuPont™ Tyvek® HomeWrap®** - Stops air movement through walls to help provide a more energy efficient home, protect a home against damaging wind and rain and allows moisture vapor to pass through
- 3/4" subfloor glued and fastened with ring shank nails with engineered floor joists
- The Texas Homes building process includes 11 independent inspections of your home during construction. This includes multiple inspections by engineers of the foundation and frame to ensure construction was completed according to the engineered plans. In addition, there are video sewer line inspections prior to slab pour and before move-in to make sure the lines were not damaged during construction.

## SECURITY & SMART HOME SYSTEMS

Texas Homes is pleased to offer Home Automation & Security on all our homes. We realize that our customers need more than just a home in the right location, their homes must also compliment their lifestyle. That means providing a home that will perform in today's digital world.

- The **Quolsys IQ Panel 2** integrates a smart home controller and alarm system into a single device with a 7" HD touchscreen, 5 mega pixel camera and multiple wireless radios to accommodate **WiFi®**, Bluetooth, **Z-Wave®**, LTE technologies. The IQ Panel will allow you to control your home with the smart home application including your alarm, thermostats, garage door, lighting, and other available smart home options.
- Alarm system features wireless backup, glass break sensor, hardwired exterior doors.
- **Skybell®** Slimline **WiFi®** video doorbell
- **Z-Wave®** programmable thermostats to wirelessly control your home comfort.
- Two **Z-Wave®** light switches at your choice of location.
- **Liftmaster®** 1/2 horsepower belt drive **WiFi®** garage opener with **MyQ®**
- 30" Network cannister with power for network equipment and up to 6 total cable (RG6) or network (CAT5E) locations.

## ENERGY SAVINGS & HEALTHY LIVING

Texas Homes is constantly working to provide our homeowners energy efficient homes with a healthy living environment for the best value.

- **Energy Efficient Carrier®** 15-SEER Heat Pump air conditioning system with **Puron®** environmentally friendly refrigerant with 10 Year parts limited warranty. Strapped and sealed R-8 mylar coated air ducts.
- **Aprilaire®** Fresh Air intake system to replenish fresh air in your home and remove stale air.
- **Energy Efficient** Low-E3 Double paned vinyl windows with divided light frames on front of home.
- **Energy Efficient** 50-gallon rapid recovering electric water heater.
- VOCs (Volatile Organic Compounds) are carbon-based compounds that can easily become vapors or gasses. Texas Homes selects building materials such as carpet and paints that are classified as Low VOC.
- **Energy Efficient LP TechShield®** Radiant Barrier roof decking is used on all Texas Homes. Radiant Barrier works by blocking radiant heat in the roof panel from emitting into the home's attic, reducing attic temperatures by up to 30 degrees Fahrenheit.
- Energy conserving R-13 batt insulation at exterior walls, R-22 insulation on sloped ceilings, R-38 blown insulation in ceiling and R-19 insulation in garage ceilings below living areas. Optional blown-in-blanket insulation is available for exterior walls as well as sound reducing insulation for bathrooms and bedroom walls.
- Energy conserving poly sealant around base plates, doors, windows, wall penetrations and air ducts to prevent air infiltration.
- Home is pre-plumbed for water softener.

## ADDED VALUE

Communication. During the construction of your home you will have four (4) meetings with your Construction Manager. In addition, as your home nears completion there will be weekly phone calls with your Sales Manager and Construction Manager.

In wall **TAEXX®** pest defense system with exterior outlet. Allows pest control to treat your home without entering.

Convenient 24-hour online customer service request via **Service.Texas-Homes.com**.

## DESIGN & CUSTOMIZATION
